BUILT TO BREAK IT

Manufacturers of Size Reduction Equipment and Process Machinery

Flow-Sentry™

A patented, fully enclosed in-line crushing device, designed to impact and break down oversized solids to a consistent free-flowing size, reducing production downtime and protecting downstream equipment. Works well with pneumatically driven solids or pumped slurries and can be supplied with a variety of options to suit your application.

Flow-Sizer™

A high-capacity, heavy-duty crushing device designed to break down oversized dry or moist bulk solids to a consistent, free-flowing size, reducing downtime and increasing productivity. The unit is dust-tight for use in conveyor or pneumatic systems, and can be supplied with a variety of options, including custom hoppers and stands.

Flow-Smasher II™ Twin Shafted Lump Breaker

The FLOW-SMASHER II crushes oversized lumps to produce consistent, free-flowing material preventing downstream line blockages and often improving the speed of subsequent production processes. The Flow-Smasher is a low-speed, high-capacity, heavy-duty lump breaker which can be installed in chutes, duct and conveyors systems, as well as be modified with a hopper for batch operations. Standard machines are constructed from CS, 304 or 316 SS, and custom material and options are available.

DA System

De-Agglomeration System for Frozen Juice Drums and Blocks

The DA System is a totally automated system designed to reduce solid blocks of Frozen Juice / Concentrate/ Pulp as they discharge from a 55 Gallon Drum. Expectation of design is to approach 100% utilization for all concentrates. System is available with automated drum handling and conveying system.

Food Applications Include:

Baking Soda	Cookies	Frozen Vegetables	Pet Foods	Seafood Shells
Bones	Corn Meal	Fruits	Potato Waste	Soy Beans
Candy	Crackers	Grains	Poultry Parts	Spices
Cereals	Fish Products	Granola	Powdered Milk	Sugar Massaque
Chocolates	Frozen Juice Blocks	Ice	Salts	Sugar
