

ROCHEM INTERNATIONAL, INC.

Your Bridge To Quality

The Rochem Value Chain begins with our expertise in sourcing raw materials from our unrivaled network of suppliers in China, to Markets in North America and Europe. Our Regulatory and Compliance support provides a competitive advantage to both Customers and Suppliers and sets us apart from other distributors. ROCHEM International Inc. provides fast and reliable service at competitive prices. We work with top quality cGMP manufacturers and dedicate a great deal of time to auditing facilities prior to adding new materials to our product line. Our strong personal and business relationships with the leading manufacturers in China have established our global reputation. We are proud to say we service many of the leading Food, Confectionery and Nutrition companies in North America and Europe today.
