

RELIABLE

Food Grade Lubricants

Summit Industrial Products offers a full line of Food Grade products that meet the quality and food safety requirements of NSF H1, NSF ISO 21469 and ISO 9001:2008. These lubricants provide superior extreme pressure, heat transfer and anti-wear properties for equipment reliability. They are resistant to oxidation, corrosion and deterioration from steam/water and harsh chemicals to provide extended lubricant service life. In addition, most Summit food grade lubricants are Kosher, Halal and CFIA approved.
