

# Thinking All Stainless?

## Think Allenair

### Our Cylinders Feature:

- Crevice Free Construction
- 100% Wash Down
- 300 Series Stainless Steel
- Position Feedback Available

### All Threaded Construction Stainless Steel Cylinders

Allenair's stainless steel cylinders are designed to exceed the strict washdown requirements of the food processing industry. For use when bacterial, environmental or corrosion problems exist. Because all metal parts are 300 series stainless steel they are recommended and suited for the meat, poultry, seafood and dairy processing industries.

Over 20,000 cylinders in stock, ready for immediate delivery

**All Stainless Cylinders From Stock Specials in 3 to 5 days**
