# Matching today's expectations. Functional carbohydrates for weight and energy management.

Today's consumers are aware of the direct link between nutrition and their overall fitness. For many, this starts with active weight management. Using products containing BENEEO Isomalt helps them avoid unnecessary calories. Others seek to better maintain their energy levels. Palatinose™ uniquely contributes to keep them going during their sport activities or on busy days. BENEEO functional carbohydrates answer all these individual needs in a balanced, low glycaemic way. **Meet the next generation of smart carbohydrates.**
