

FOOD INGREDIENTS AND PROTECTION FROM DUPONT NUTRITION & HEALTH

DuPont Nutrition & Health addresses the world's challenges in food by offering a wide range of sustainable, bio-based ingredients and advanced molecular diagnostic solutions to provide safer, healthier and more nutritious food. Through close collaboration with customers, DuPont combines knowledge and experience with a passion for innovation to deliver unparalleled customer value to the marketplace.

The DuPont™ Danisco® range of ingredients can help reduce fat, sugar and salt content without sacrificing taste and texture, while actively promoting improved digestive, immune and bone health; our portfolio of soy ingredients provides a healthier and more sustainable source of protein. Our RiboPrinter® and BAX® systems provide fast, genetics-based pathogen detection and monitoring, helping to increase food safety through highly accurate diagnostic systems that complement our food protection ingredient solutions.
