

Frick® | Quantum™ HD Unity System Controller

## The savings you see are just the beginning.

Refrigeration costs can be like an iceberg - some elements are very visible, while most may go undetected. The Quantum HD Unity System Controller provides instant savings, costing up to 40% less than comparable PLC systems. The savings continue, as the Quantum HD Unity System Controller constantly monitors and controls the operation of your refrigeration system using best control practices for your evaporators, condensers, vessels, engine room, compressors and more. Conveniently monitor the Quantum HD Unity controller from wherever in the world you may be with a Web-enabled PC or mobile device.
