

## BEVERAGE FLAVORS

## SWEET FLAVORS

## SAVORY FLAVORS

### CHEF-ASSIST®

Chef-Assiste is a unique line of oil-soluble, dried and water-soluble flavors designed with the research chef and food technologist in mind. It can be used to save time in product preparation, to enhance and bolster flavor profiles and to recapture tastes lost during harsh cooking and freezing processes.

### MEAT FLAVORS

Flavor Dynamics' meat flavors include products that not only mimic the taste of different types of meat - beef, fish, poultry and game - but also products geared towards dishes prepared under specific cooking conditions or with specific complimentary ingredients.

### CHEESE FLAVORS

Whether your product's flavor is mild or sharp, for use in a snack food topping or an exotic dessert, we have a flavor that will enable your market product to meet your highest expectations.

### FLAVORS FOR BEVERAGES

Flavor Dynamics' lines of coffee and tea flavors are among the best-regarded in the industry. Our well-rounded selection includes flavors for year-round classics as well as seasonal, dessert and holiday applications.

### FLAVORS FOR SOFT DRINKS, ENERGY DRINKS AND JUICES

Flavor Dynamics' selection of flavors for soft drinks, energy drinks and juices is limited only by the imagination. Our immense catalog includes an incredible variety of cola, fruit, spice and citrus notes that can be added to nearly any kind of beverage.

### SWEET FLAVORS

We have an extensive catalog of flavors for a variety of applications including confection, baked goods, ice creams, and yogurt. Our product lines reflect the marketplace's diversity of flavors with thousands of selections developed by our flavor chemists and in-house research chefs. Whomever your market includes and whatever gold-standard flavor you may be trying to achieve, we will work with you to ensure that your product perfectly matches your culinary vision.
