

MIKRO

THE ONLY NAME IN PULVERIZERS & HAMMER MILLS

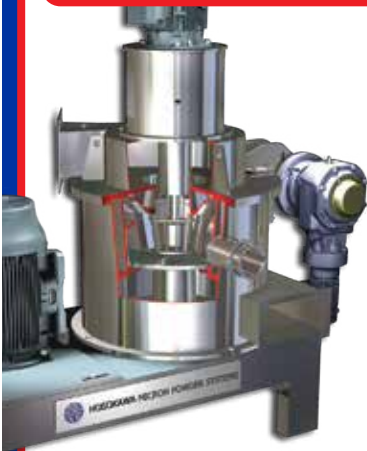

MIKRO PULVERIZER® HAMMER & SCREEN MILL

- Continuous & Economical grinding for fine to coarse milling
- Designed specifically for Food Applications - stainless steel construction
- Available for laboratory scale milling to large production models with 350 HP

Watch a short demo

Hosokawa is known for designing & manufacturing some of the most efficient, accurate & durable size reduction systems & powder processing solutions in the food industry.

Mikro ACM® Air Classifying Mill

- Coarse to ultra-fine size reduction systems
- High capacity, super efficient air classifiers
- Mixing, blending & material drying equipment
- Compaction & dry granulation systems
- Hygienic filling & weighing systems
- Laboratory & powder analysis equipment
- Test Center & Analytical Laboratory

Vrieco-Nauta Vitomix® Mixer
