

Going gluten-free?
Kikkoman can help.

INTRODUCING KIKKOMAN GLUTEN-FREE TAMARI SOY SAUCE

If you're working overtime to lose the gluten in formulations, we've got news you can use. Our new Gluten-Free Tamari Soy Sauce is a natural flavor enhancer that adds umami richness to everything from Asian items to mainstream flavor systems. It's traditionally brewed under the strictest GFCO protocols from premium ingredients without the traditional wheat used in regular soy sauce. Preservative-free, for a cleaner label, and available in liquid or granulated form to meet any application need, from entrées and meats to snacks, sauces and dressings, it's the GF solution for Asian and beyond.
