

# Processing With Innovation

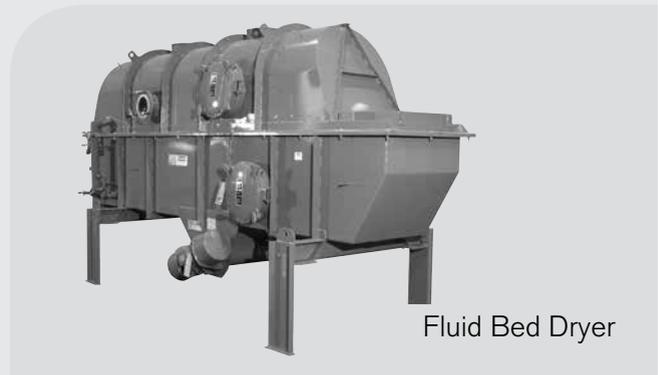

Since 1950, Carrier has been designing and manufacturing innovative process equipment for the food, dairy, and pharmaceutical industries to dry, cool, elevate, sort, convey, feed and screen. Each unit is custom built and designed to work superbly with each unique application. No process challenge is too demanding for Carrier.

## Research

- 20,000 square-foot Research and Development Laboratory
- Simulate operating conditions and improve efficiencies of existing process lines
- Chart material characteristics and behavior in a specific process
- Ensure equipment meets specs and qualifies for a performance warranty
- Analyze test data to assist in equipment selection

## Major Products

- Easy Flow Vibrating Conveyor
- Posi-Flow® Vibrating Conveyor
- DMC Horizontal Motion Conveyor
- Ampli-Flow™ Vibrating Feeders
- Vibrating Screeners
- Spiral Elevators
- Fluid Bed Processors
- Conventional Fluid Beds
- Vibrating Fluid Beds

Fluid Bed Dryer

Screener

Vibrating Feeder
