

RRS **ROME** RECLAIM SYSTEM

Maximize yields.
Minimize waste.

The **Rome Reclaim System (RRS)*** is the premiere two-in-one bone elimination system you can rely on for:

- **Product safety** - complete batch control eliminates the risk of bacterial contamination
- **Easy sanitation/maintenance** - fewer parts disassemble quickly to clean to AMI/3A Sanitary Guidelines
- **Product quality** - reduced handling maintains optimal texture, definition and color
- **Reduced labor cost** - automated elimination replaces manual product transfer step

HIGH CAPACITY MEGA GRINDERS

Dependable performance.
Long equipment life.

Rome's Mega Grinders feature feed screws and barrels machined from one piece of solid stainless steel.

Maximus Series - made for grinding frozen block, tempered block, pre-broken frozen, bone and rendering

Titan Series - capable of grinding tempered block, pre-broken frozen, fresh and bone

Brutus Series - ultra-small footprint

Maximus

PARTS, SERVICE AND SUPPORT

Behind you in a big way.

Rome's sales specialists bring 150 years of combined knowledge and experience to each project providing technical support, audits, set-up classes, production staff training and process improvement advice. An extensive inventory of quality built Rome parts as well as OEM parts help processors get back up and running with minimal downtime and production loss.

The **Empress Series** of cutting parts includes **Champion, Legend** and **Imperial plates** - each designed for specific grinding applications and built to withstand the harshest of grinding environments.

The **Hercules Gearbox** is constructed with a heavy duty cast steel case for durability and longevity. **Conversion Systems** increase production using existing equipment. Let us show you how to turn your current equipment into a **MEGA grinder**.
