

EXBERRY®

YOU DEVELOP RECIPES FOR SUCCESS.
WE GROW IT.

When it comes to coloring food, more and more industry professionals are choosing a natural alternative. EXBERRY® colors are derived solely from fruits, vegetables, and edible plants, and are made without the use of artificial ingredients or chemical solvents. With a portfolio of colors that is completely non-GMO and almost entirely organic or organic compliant, GNT can deliver sustainable solutions that end-consumers desire and value. With more than 30 years of experience and knowhow, GNT can support you through the entire product development process, from color-matching to stability testing. Find out why GNT is the leading industry choice for clean-label, natural colors. Find out more at gnt-group.com
