

## SPECIALIST IN PROCESS HEATING

Heatec has been around for a while, over 40 years. We specialize in industrial heating equipment and heated storage systems. You may have seen our ads over the years, but we have never properly introduced ourselves. So, hi, we are Heatec. We build our products in the USA in a manufacturing facility that's over 100,000 sq ft. We also have a large and experienced engineering department. But we can't tell you everything about us in this ad, so give us a call at 423-821-5200 or visit our website at [www.heatec.com](http://www.heatec.com) to get to know us a little more.
