Inline, Side Inlet, Hi-Capacity Sanitary Strainers and more...

Inline Strainers
(Short & Long)

Wire Mesh OverScreens and Perforated Support Cores

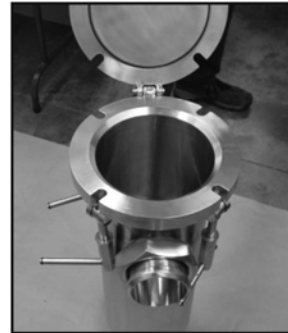

Side Inlet Strainers
(Short & Long)

SaniClean's Inline and Side Inlet Sanitary Strainers are dimensionally interchangeable, and their component parts: perforated support cores, springs, and distributor caps are all interchangeable with many of the standard models currently on the market. Our Wire Mesh OverScreens are made for a snug slip fit over the perforated support core. These OverScreens feature continuously welded seams - no loose wires.

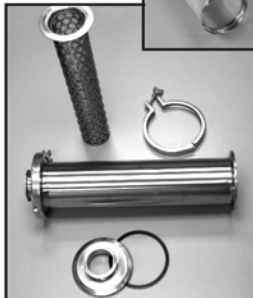

All "IN-STOCK" - Same Day Shipment Available!!!
