All 316L Stainless Steel Drum Motors Designed for HYGIENIC AND WASHDOWN CONVEYOR APPLICATIONS

Designed and engineered specifically for the food industry, the **USDA approved SSV Sanitary Drum Motors** are manufactured to **drive flat** or **modular conveyor belts** where hygiene and food safety is paramount. The **all enclosed design** of the drum motor has no external moving parts, eliminating maintenance required on conventional exposed conveyor drives and **increases operator safety**.

WASHDOWN PRESSURE UP TO 3,000 PSI ▶ IP69K sealing system

ELIMINATE FOREIGN MATERIAL CONTAMINATION ▶ All 316L stainless steel

NO MAINTENANCE ▶ No external moving parts

Made in USA
