

**If you're in need of a food processing workhorse,  
don't settle for a one-trick pony.**

**Other manufacturers build conveyors. Carrier processing equipment does much more.**

Regardless if you need to dry, cool, roast, separate, or convey material in a sanitary environment, you can count on the experience and innovation of Carrier. We've built hundreds of systems that not only solve unique processing problems, but also meet the most demanding sanitary specifications.

For more information on Carrier's innovative food processing equipment, call 502-969-3171.
