

Clean and sanitize every cycle.

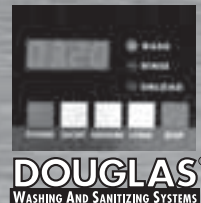

Ensure An Effective Food Safety Program with Douglas Washing and Sanitizing Systems.

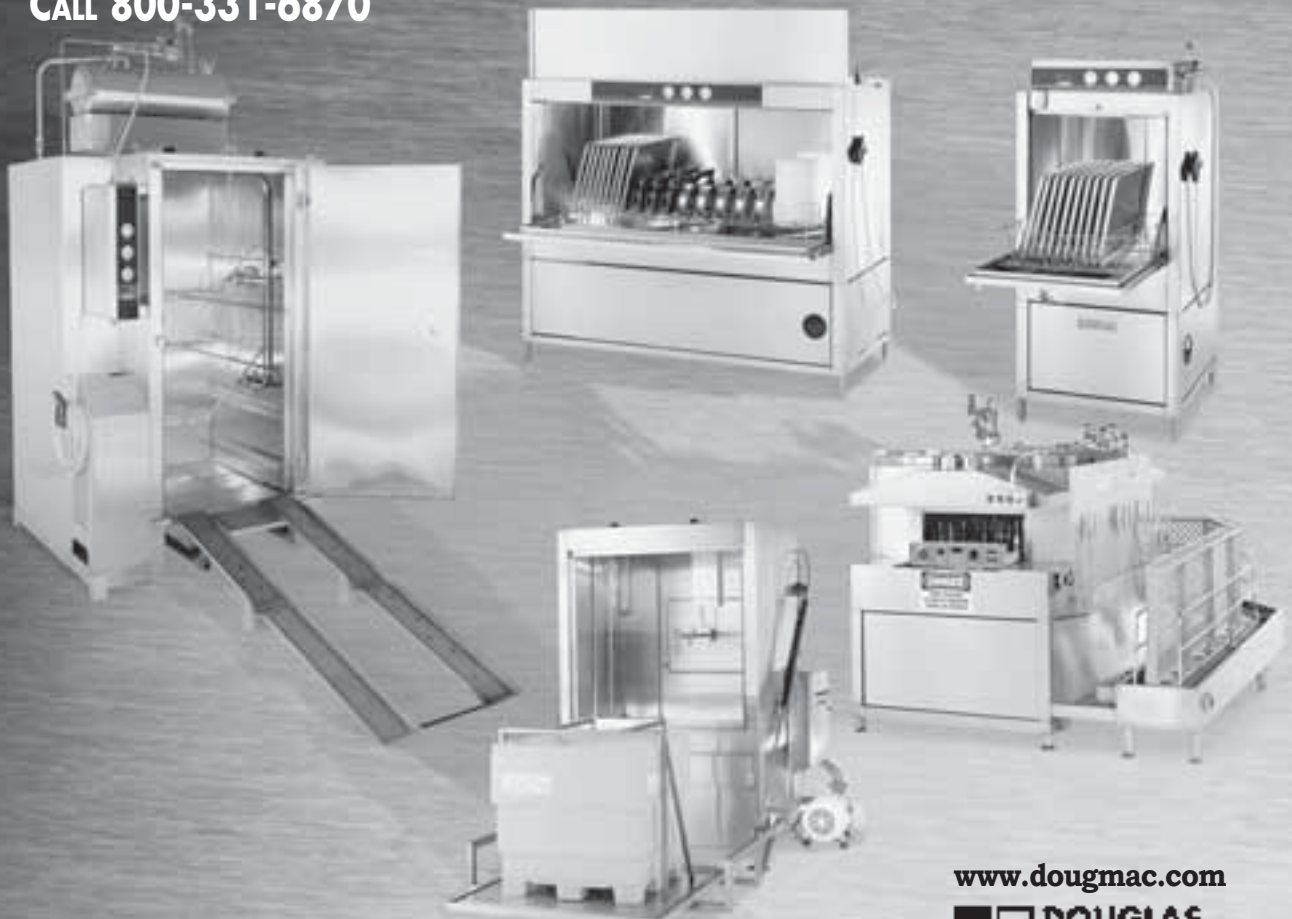

When you standardize your cleaning process with an industrial strength washer from Douglas Machines, you'll achieve optimum results time after time-- automatically! Each model is carefully designed and engineered to provide consistent water temperature, water pressure, spray patterns, cycle times and detergent usage.

Whether you're looking for compliance with HACCP, SSOP, NSF or USDA requirements, or simply want to minimize labor, water and energy costs, rely on the industry leader for over 30 years. Call for pricing, literature and specifications on a model suited to your particular needs or visit www.dougmac.com.
