

Keep production running seamlessly with the right floor!

Replacing your floors every other year doesn't have to be the norm. Eliminate costly floor repairs and production loss with a Dur-A-Flex® seamless system that's formulated for your industry. Our urethane systems easily stand up to continuous thermal shock cycles, high temperature washdowns and won't crack or delaminate like other flooring.

Dur-A-Flex floors:

- **Eliminate production loss with quick installs**
- **Are groutless** – low maintenance, no place for bacteria to hide
- **Increase safety** – slip resistant surfaces, even when wet
- **Are durable** – easily withstand thermal shock, outperform other flooring
