

serv&care

Protect your investments

Connect with our expert service, repair and genuine parts program

As a key component of your processing line, the centrifuge has a demanding job. Safeguard your machines with GEA Westfalia Separator serv&care. This program operates through six regional North American offices, including two authorized repair facilities -- one on each coast. A connection to our serv&care specialists means a quick response to all your service needs, ensuring safe, reliable equipment operation for maximum productivity and ROI. To learn more, contact Klaus Brinkrode at 201-784-4335 or Klaus.Brinkrode@gea.com or visit us online at www.wsus.com.
