

Conveying/Processing Systems

Key ways to convey, grade and feed products for processing & packaging

Key's suite of intelligent conveyors...

- **Iso-Flo®** – global benchmark for quiet energy distribution
 - **gentle, no-damage** – industry's lowest external vibration
 - **all stainless** – easy sanitation, low maintenance
 - **versatile applications** for grading, dewatering, fines removal, alignment and more
- **Impulse®** – electromagnetic conveying, instant start/stop
 - **precision** – for metering, mixing, feeding
 - **convenient** – where control and space are issues
- **Horizon™** – horizontal motion conveying
 - **gentle, quiet** – low breakage, seasoning loss
 - **ideal for fragile snacks**, cereals, coated foods

Also: **Marathon™** long-distance conveyor • **SmartArm®** wireless monitors • **Forte®** controls

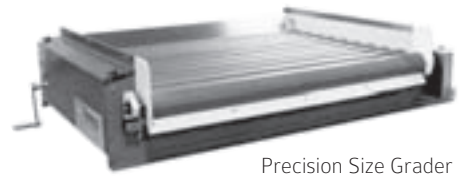

Smart Shaker® Vibratory Conveyors

Systems to classify, transfer and remove targeted material...

- **Precision Size Grader** speeds grading for products from green beans to potato strips
- **Rotary Size Grader** removes EVM, seeds, snipped ends
- **Sliver Sizer-Remover** dejuices, deseeded, discards fines
- **Length Sizer** targets whole potatoes for specialty cuts
- **Small Piece Remover** lifts away undersized product

Rotary Sizers/Graders

A program that delivers peace of mind...

Key stands behind our products and customers with a service focus that safeguards your sorters, shakers and processes – and the revenue they generate for you.

- **24/7 technical support & parts worldwide**
- **Three plan levels** to optimize sorter investments
- **RemoteMD™** real-time monitoring to boost uptime
- **Training programs** – online and instructor-led
- **Service Advisor** quarterly newsletter with product info, tips and advice to keep you at peak performance
