

TOTAL VALUE BY DESIGN.™

## From Applesauce to Yogurt – R.A Jones will help you deliver packaging convenience and economy. That's Total Value by Design.™

From breakfast treats to late night snacks, hundreds of processors rely on the seven innovative machinery brands from R.A Jones to help package their products with unmatched speed, efficiency and food safety.

Superior engineering is key. In total, we have earned more than 100 packaging machine patents and our 120-member engineering team can bring more than 1,800 years of

combined experience to your design challenge.

We back that design expertise with a unique culture of customer support. Every member of our 600-person team is available to provide service and technical assistance 24/7/365.

Small wonder that our machinery brands like Holmatic, Dawson and Autoprod have earned “most

trusted” status among the world’s food processors and consumer products companies.

Call or click today to learn how we consistently deliver Total Value by Design™ For more than 100 years that’s been our legacy and it remains our continuing promise to you.
