

## Safe, quality products made from easy to clean, sanitary food process systems

Mac Process / Schenck AccuRate. Your global source for pneumatic conveying, air filtration, weighing and feeding solutions.

Together as one company, Mac Process and Schenck AccuRate lead the industry in the design of material handling systems for a wide range of food manufacturing applications. From cereals to pasta, snack foods, baking, and many others, over 100 in-house engineers custom design/build 100% compatible systems for pneumatic conveying, air filtration, and sanitary weighing and feeding. Our Clean Design Initiative ensures easy to clean equipment without added cost or complexity. World renowned technologies like E-finity™, CRA Valve Line, SEntry Receiver Line, MECHATRON® 3-A Sanitary Feeding Systems, DEA Open Frame Weighfeeding, and our optimum control systems are proven to improve food quality, reduce waste and lower operating costs.
