

URSHEL®

The Global Leader in Food Cutting Technology

E TranSlicer® Cutter (Model ETRS)

Three different types of cutting wheels: slicing wheels, [®]patented MicroSlice® wheels, and julienne wheels, are available to produce a full range of slices and julienne cuts. The E TranSlicer accepts firm products up to 4" (101.6 mm) in diameter and leafy-type products up to 6" (152.4 mm) in diameter.

Model CCX-D Shredder

The U.S.D.A. accepted Model CCX-D offers a larger 32-inch cutting enclosure option and 10 HP motor. This promotes smoother product flow and higher capacities. Features highly polished surfaces to meet or exceed U.S.D.A. guidelines, fully-enclosed motor, and swingaway hopper.
